EDUCATION

Pune Institute of Computer Technology, Pune

B.Tech, Computer Engineering | CGPA: 7.8 / 10 | 2021 – 2025

Relevant Coursework: Data Structures, OOP, DBMS, Computer Networks, Probability & Stats

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, SQL

Frameworks/Tools: Flask, Node.js, Git, GitHub, Postman, VS Code

AI/ML: NumPy, Pandas, Scikit-learn, basic familiarity with HuggingFace transformers

Databases: MySQL, MongoDB

Other: REST API integration, basic prompt engineering with ChatGPT & Claude

EXPERIENCE

Python Development Intern — TechSprint Solutions, Pune

May 2024 – Jul 2024

- Automated internal report generation using Python + pandas, saving ~6 hrs/week of manual work.
- Built REST APIs using Flask for a small internal HR dashboard; integrated with MySQL backend.
- Wrote documentation for 3 internal tools and presented demos to a team of 8.

PROJECTS

ResumeBot — AI-Powered Resume Screener [Python, OpenAI API, Flask, Streamlit]

- Used OpenAI GPT-3.5 API to match resumes against job descriptions with a basic scoring system.
- Built a Streamlit UI for HR teams to upload resumes and get shortlisting suggestions.
- Learned prompt engineering basics — few-shot prompting, output structuring in JSON.

ExpenseTracker — Personal Finance App [Node.js, Express, MongoDB, React]

- Full-stack CRUD app with JWT auth, category tagging, and basic analytics charts.
- Deployed on Railway; ~50 active users among college peers.

CERTIFICATIONS & ACHIEVEMENTS

- ChatGPT Prompt Engineering for Developers — DeepLearning.AI & OpenAI, 2024
- Python for Everybody — Coursera (University of Michigan), 2023
- 2nd Place — Intra-college Hackathon, PICT TechFest 2024 (Built AI quiz generator)
- LeetCode: 350+ problems solved (Rating: ~1480)
