EDUCATION

College of Engineering Trivandrum (CET)

B.Tech, Information Technology | CGPA: 6.9 / 10 | 2022 – 2026 (Pursuing)

Relevant Coursework: Programming in Python, Web Tech, Data Mining, Software Engineering

TECHNICAL SKILLS

Languages: Python (intermediate), HTML, CSS, JavaScript (basic)

Tools: Git, GitHub, Google Colab, Jupyter Notebook, Canva

Libraries: Pandas, Matplotlib, Seaborn, basic Scikit-learn

AI Tools Used: ChatGPT, Gemini (for personal productivity; no API experience yet)

PROJECTS

Crop Disease Detector [Python, Streamlit, Scikit-learn]

- Built a basic ML classifier using Random Forest to identify 5 crop diseases from leaf images (CSV features).
- Deployed on Streamlit Cloud with a simple upload interface — first end-to-end ML project.

College Event Portal [HTML, CSS, JavaScript, Firebase]

- Static website for college fests with Firebase for RSVP form submissions.
- Used by ~300 students during annual tech fest.

COVID Data Dashboard [Python, Pandas, Matplotlib]

- Visualised state-wise COVID trends using government open data; submitted as college mini-project.

INTERNSHIPS

No formal internship yet — currently applying for first opportunity.

CERTIFICATIONS

- Python Basics — HackerRank Certificate, 2023
- Introduction to Machine Learning — NPTEL (Score: 68%), 2024
- Currently enrolled: LangChain for LLM Application Development — DeepLearning.AI (in progress)

ACHIEVEMENTS

- Participated in Smart India Hackathon 2024 (college-level round, did not advance)
- Class representative, IT Dept, 5th Semester
